

Registration

Conference registration opens on **April 15, 2024**.

Registration fee

PCE Workshop (Sept. 24, 2024)	250 € (regular price)
----------------------------------	-----------------------

150 € (student price)

PCE Conference (Sept. 25-26, 2024)	600 € (regular price)
---------------------------------------	-----------------------

300 € (student price)

Sponsorship & Exhibition

Sponsors highly contribute to the success of the conference and gain greater visibility for their companies. We offer three levels of sponsorship as described in the packages.

The conference also features an exhibition. Companies which provide macromonomers, PCE polymers, analytical instruments and/or technical services to the construction industry are cordially invited to exhibit their products and technologies.

PCE 2024

5th International Conference on Polycarboxylate Superplasticizers (PCE 2024)

September 24 - 26, 2024

Centara Grand at Central Plaza
Ladprao Bangkok, Thailand

www.pce-conference.org

Aim of the conference

We will offer an exciting program again, with updates on latest PCE technology developments and a focus on PCEs for low carbon “green” binders, presented by prominent speakers.

PCE 2024 offers a unique opportunity for the PCE community to discuss important developments, exchange new ideas, consider latest market trends and at the same time stimulate further exploration of the PCE technology. On one hand, participants can gain knowledge from scientific lectures while on the other hand PCE 2024 offers insights into practical aspect of PCE application.

Call for abstracts

We kindly invite you to submit an abstract as PDF or word file until **May 15th, 2024** to the following e-mail address: pce.conf@gmail.com

The conference team will provide you with the guidelines and a template with the basic format to prepare your abstract.

The program committee will select the best abstracts for oral presentation (15 min) or poster.

Keynote Speakers at PCE 2024

(More to be announced)

Prof. Dr. Johann Plank

Professor at TU München, Germany

- Design of new PCE structures with enhanced cost effectiveness
- PCE Technology for Low Carbon “Green” Binders

Prof. Dr. Lei Lei

Professor at Hunan Uni., China

- Compositional Analysis of PCE Superplasticizers

Dr. Ara Jeknavorian

Jeknavorian Consulting Services

- Latest Trends in Concrete technology and their Impact on Chemical Admixtures
- Consequences of the Rapid Conversion of OPC to PLC in the United States Concrete Market

Dr. Gerhard Albrecht

Independent Technical Consulting

- Designing of Vinyl-PEG based PCEs through Process Engineering

Dr. Giorgio Ferrari

Mapei SpA

- PCEs for Sustainable Concrete
